# Key Features of ABCI Cloud Storage

- ## "Data Harbor" connected to SINET5
  - Fast and safe data collection and accumulation from organizations through SINET5
  - Sharing and distribution of advanced AI and machine learning models trained on ABCI

ABCI Cloud Storage

- ## Amazon S3 compatible API
  - Take advantages of the de facto standard API of cloud storage and its software eco system
    - Oracle Cloud, IBM Cloud, IIJ, SAKURA internet, etc.
    - It is possible to port various software and services for S3, to ABCI.
  - Unlike shared file system, fine-grained and flexible access control is possible with Bucket.

- ## Enterprise data encryption
  - SSL encryption in communication with ABCI Cloud Storage from everywhere
  - Support Server-Side Encryption (SSE) as at rest encryption
