Actions

Data Literacy (Acumen)

Data Sharing Agreements

- Private sector data (data trusts)
- Local govt – is this a place for standards?
- Vendor lock-in prevents data access

Training

- Building local govt capacity
- Create next generation of data scientists for the public good

Ethical dimensions of data science and geospatial research

- Embed in all stages of research
- Incorporate social benefits and risks

Privacy

- Don't mask data; instead punish misuse
